Managing Director
International Monetary Fund
Washington, D. C.

Dear Per:

I deeply appreciate the message from Violet and you.

I have read and re-read your profound words about the nature of Foster's contribution to American policy and thank you for them. I know that he enjoyed working with you and had a high opinion of the prime importance of the International Monetary Fund in its support of the principles which helped to build and strengthen the Free World.

Clover joins me in thanking Violet and you for your letter.

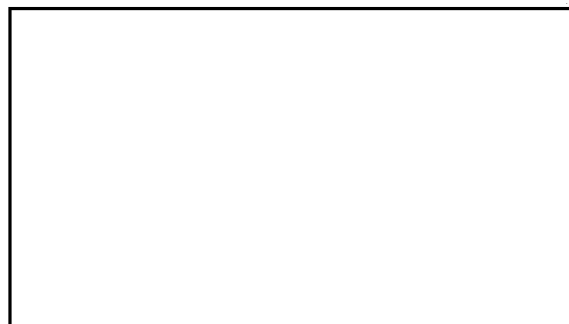

Sincerely,
